PROFESSIONAL SUMMARY

Staff Frontend Engineer and Design Systems Architect with 9+ years building scalable frontend platforms. Led the architecture of LATAM Airlines Design System -- an enabling platform adopted by **50+ product teams**, owning the shared web foundations that let engineers ship consistently and at quality. Deep expertise in React, TypeScript, and cross-team enablement. Based in Madrid and open to Staff Engineer, Principal Frontend, Senior Frontend Engineer and Design System Lead roles. Portfolio: rodrigobustamante.cl

CORE COMPETENCIES

React / TypeScript / Next.js

Design Systems & Shared Web Foundations

Developer Experience (DX) & Tooling

Testing (Jest | RTL | Cypress)

Frontend Performance & Core Web Vitals

Accessibility (WCAG)

Micro-frontend & Module Federation

Cross-team Enablement & Mentoring

CI/CD & Platform Reliability

API Design & BFF Patterns

EXPERIENCE

LATAM AirlinesOct 2024 - Mar 2026

Software Architect | Madrid, Spain (Remote)

- Led architecture of LATAM Airlines Design System -- the **shared web foundation** for 50+ teams across all digital platforms; owned tooling, patterns, architecture, and the reliability of the developer workflow across squads
- Designed design token system and cross-platform theming (React + React Native), enabling consistent delivery across commercial, loyalty, and internal apps without per-team duplication
- Built and maintained CI/CD pipelines (GitLab CI), cloud infrastructure on GCP (Cloud Run, Cloud SQL, Cloud Armor) and IaC with Terraform -- owned reliability from code to production
- Mentored engineers across multiple squads; set technical direction through architecture reviews, RFC process, and documented golden paths
- Created MCP servers and AI-powered tooling to reduce friction for developer workflows across the organization
- Enforced WCAG accessibility compliance and component performance standards across critical user flows

LATAM AirlinesJul 2023 - Oct 2024

Senior Software Engineer | Santiago, Chile (Remote)

- Owned frontend performance and reliability for LATAM's home page -- highest-traffic page in Latin American aviation, millions of monthly users
- Drove Core Web Vitals improvements via Next.js SSR, lazy loading, and Redis caching; maintained measurable gains under continuous delivery
- Integrated personalization services delivering tailored content across 10+ countries
- Contributed to micro-frontend architecture decisions; established frontend best practices adopted team-wide

GlobantDec 2021 - Jul 2023

Web UI Developer Senior | Santiago, Chile (Client: LATAM Airlines)

- Led frontend development for the home page of Latin America's largest airline, serving millions of monthly users across 10+ countries
- Architected multiple micro-frontends with React and Next.js (SSR); improved page load performance and Core Web Vitals
- Built BFF APIs with Node.js and Express integrating personalization and promotions services; proposed API designs with the backend team
- Mentored mid-level engineers; contributed to code review culture and quality standards

Globant

Aug 2020 - Dec 2021

Web UI Developer SSR Adv | Santiago, Chile (Client: LATAM Airlines)

- Developed features for LATAM Airlines' home page and promotional backoffice via federated micro-frontend architecture
- Implemented Redis caching strategies for high-traffic API endpoints
- Set up and maintained Jenkins CI/CD pipelines; improved deployment reliability across the team

Acid Labs Chile

May 2019 - Aug 2020

Software Engineer | Santiago, Chile

- Built core modules of Ripley.com's e-commerce platform: home page, product catalog, and campaign admin panel
- Developed a payment gateway for Coca-Cola Embonor (Chile & Peru) with Node.js/Express on AWS EKS + Kubernetes
- Acted as technical lead during COVID-19 ramp-up, onboarding engineers and guiding architecture decisions under tight timelines

INNSPIRAL

Jun 2018 - May 2019

Technology Analyst | Santiago, Chile

- Built full-stack web applications for enterprise clients in React and Node.js; owned full delivery from requirements to GCP deployment

TECHNICAL SKILLS

Frontend	React, Next.js, React Native, TypeScript, CSS-in-JS (Styled Components, Vanilla Extract), TailwindCSS, Storybook, GraphQL
Testing	Jest, React Testing Library, Cypress, MSW
Monorepo & Tooling	NX, Yarn Workspaces, Webpack, Module Federation, Semantic Versioning, Changesets
Backend	Node.js, Express, Redis, MySQL
Cloud & Infra	GCP (Cloud Run, Cloud SQL, Cloud Armor), Terraform, Docker, Kubernetes, AWS EKS
CI/CD	GitLab CI, Jenkins, Heroku
Specializations	Design Systems, Micro-frontends, Design Tokens, Accessibility (WCAG), Core Web Vitals, MCP Servers
Languages	English (B2 - Professional Working) Spanish (Native)

EDUCATION

B.Eng. in Computer Engineering | Duoc UC

2014 - 2017

Santiago, Chile | Winner, CITT Annual Competition 2017

CERTIFICATIONS

Scrum Foundation Professional Certificate (SFPC)
